

## PARENT AND STUDENT ACKNOWLEDGEMENT

This CODE has been written so students and family members know what behavior is expected and prohibited at school or at school activities. It is helpful if parents are aware of school rules so they can help support them from home. Failure to return this acknowledgement will not relieve a student or the parent(s) from the responsibility for knowledge of the contents of the *Code of Student Conduct*.

I have read:

- the Code of Student Conduct Highlights (on pages ii, iii, and iv)
- the Annual Notice About Your Rights Concerning Student Records including releasing information to military recruiters and institutes of higher education. (page v; Directory Information Opt-Out form on following page)
- the Annual Notice of School Board Policy Required By The Protection Of Pupil Rights Amendment (page x and xi)
- the Notification of Availability of the No Child Left Behind (NCLB) School Public Accountability Report 2012-2013 (page xi)
- Florida Statute allowing blood donation by 17 year olds (page xi)
- Social Security notification (page xii)
- Compulsory Attendance and Driving Privilege (page xiii)

I will review the *Code of Student Conduct*.

Additionally:

It is acceptable to display my child's good work. My Child does not consent to any searches, my child reserves the right to be silent in the event of a police interrogation and demands that both myself and our lawyer MUST be present for any police interrogation. Any attempt or assistance by the School or School Resource Officer to deny my child's civil rights or coerce or trick my child into waiving those rights may result in a Civil Law Suit against the Principle, Superintendent and or the entire Pinellas County School System. Florida Statute 1006.13 mandates that "each school district shall adopt a policy of zero tolerance for crime and victimization", not substance abuse.
